

Is a Great Dane for me?

- Am I prepared for a dog that is likely to outweigh me before it is a year old?
- Do I want a dog that will live outside? If yes, this is not the dog for you.
- Do I want a guard dog? If yes, this is not the dog for you.
- Am I prepared to share my couch and my home with a very large dog?
- Do I have children? If not, do I plan to have children?
 - If children are present or planned are you prepared to train your dog to be around children? Too many Danes are re-homed because their owners feel their children are 'too small'. If you feel that you might become one of these owners perhaps another smaller breed is for you. We are by no means saying that Danes are not great with children, just please evaluate your own feelings regarding a Dane and children **BEFORE** bringing one into your home.
- What type of food am I going to feed my Dane that will meet their lower protein requirements?
- Do you plan to crate train?
- Do you plan to attend training classes with your dog?
- Are you aware of the health problems in the breed?
- Are you ready to share your home with one of these beautiful animals? If yes, please fill out an adoption application and let us help you!
